### DISTRICT ROAD FUND.

NOTIFICATION—No. 98.

*The 12th March 1888.*

THE subjoined accounts and reports of the Road Cess Committees of the districts of Cuttack, Pooree, and Balasore, for the half-year ending the 31st March 1887, are published for general information.

W. B. BERRIE,

*Under-Secy. to the Govt. of Bengal, P. W. Dept.*

No. 199, dated Cuttack, the 8th August 1887.

From—E. R. HENRY, Esq., Chairman, Road Cess Committee, Cuttack,  
To—The Commissioner of the Orissa Division.

WITH reference to the Government Circular No. 2384, dated 21st May 1887, and your No. 454C, dated 26th ultimo, I have the honour to submit the accounts and report on the working of the District Road Committee for the half-year, from 1st October 1886 to 31st March 1887, as asked for therein.

The actual receipts brought to the credit of the fund during the six months under report were Rs. 49,952-3-8, including the outstanding balance of Rs. 15,106-11-7 on the 30th September 1886.

The total expenditure incurred during the half-year under notice amounted to Rs. 20,788-8-6, including the cost of establishment and minor charges, leaving a balance of Rs. 29,163-10-9 on the 31st day of March last, which was transferred to the District Board as directed.

The heavy decrease in the estimated receipts and expenditure is attributable to the fact that the figures shown under the head "Budget Estimate" were for 12 months, that is, from October 1886 to September 1887; but the expenditure shown in the present return was for six months only, exclusive of the total value of work partly executed or in an unfinished state, as payments in full could not be made for them before the close of the half-year under review.

*Original works.*—It was proposed to open one line of communication from Tanghi to Bhagatpur, but nothing has yet been done, as the land required for the purpose has not yet been made over by the zemindar who promised to give it to the department; however, he has been reminded of his promise and asked to give effect to it without any further delay.

As regards the other original works noted in the margin, provided for in the budget, I beg to state that the works in respect of Nos. 1 to 3 and 5 to 7 are in progress. In respect of work No. 4, 2,300 cubic feet of earthwork done and a large quantity of sandstone has been delivered in situ. No. 8 has been completed except the thatch and out-offices. For No. 2, 40,000 bricks have been moulded and the woodwork got ready.

1. Building Munibky nala
2. For making bucks, &c., for the bridge on 25th mile. Mohab's head
3. Culvert at 26th mile of ditto
4. Trench with water way from Sunapur road to Padpur hat
5. Two culverts on 31 miles, Machagan road
6. Culverts on 39th mile
7. Building out Hava nala
8. Inspection huts and out-offices at Chura
9. Completion of Machagan road to Dehri

Fifty thousand cubic feet has been executed in respect of No. 9. No payments whatever have been made for the works mentioned in Nos. 8 and 9.

The District Engineer has been requested to see that these works are completed before 31st March next.

*Repairs.*—All the urgent and necessary repairs have been made to roads and bridges, &c., which are reported to be in fair order during the half-year under review. I think it desirable to give a short outline of the following petty damages caused by the storm of the 25th and 26th May last, though it does not itself refer to the half-year under report.

1. The approach to the Brahmini ferry (right bank) at Gopalpur, 50th mile, Chandbally road, has been washed away. This was an earthwork spur and has to be removed annually after the rains.

2. The earthwork on both sides of the Malpurna sluice, 50th mile, Chandbally road, has been eroded. The District Engineer has promised to report after enquiry whether stone-rubble can be delivered there, and to frame an estimate for pitching this portion of the road, as it suffers from each storm and costs much for repairs.

3. Shutters have also been blown away, but possibly may be recovered afterwards.

4. At the Chandbally ferry over Bytuni, 32 feet length of the platform of the range has been carried away; the posts are standing and are reported to be very dangerous. The District Engineer has been directed to replace them at once.

*Village roads.*—The repairs of the village roads in Sukler sub-division are reported to have been in progress.

New village roads were started during the half-year. One was completed and the rest were in progress. It is satisfactory to note here, as it is the only instance as yet, that the villagers of Fakirparah have contributed Rs. 30 towards the cost of the Fakirparah village road.

Almost all the village roads in the Kendraparah sub-division were in progress during the half-year, and were passable, as reported by the Sub-divisional Officer of that sub-division.

As regards Jajpore, no work whatever appears to have been taken up during the half-year; a small sum was paid to the contractors for the works done prior to 1st October 1886, and not charged before the close of that year. The Sub-divisional Officer has been requested to push on the work vigorously.

*Inspection Bungalows.*—The annual repairs of all the inspection bungalows on the Chandbally road reported to have been completed, and of the rest to be in progress.

During the late storm of May last, the plastering of the Baruan bungalow and out-offices were damaged; trifling damages to plastering and thatching of the Kendraparah, Pattamundy and Aul bungalows were also reported.

In the Aul bungalow 23 young coconut palms have been destroyed; the District Engineer has been requested to replace them.

*Tools and Plant.*—The few tools required during the half-year were purchased from the local market.

*Tree-planting.*—The sanctioned establishment to look after the trees were entertained and malle's reported to have done fairly well. Gabions have been provided, where necessary, to protect the young plants.

Ten trees on the 2nd mile of Jajpur-Kuakhya road, and 35 on the Jajpur to Kendraparah road, have been destroyed by the storm of the 25th and 26th May last, and 18 gabions blown away and many damaged. The District Engineer has been asked to replace them.

*District and Branch Committees.*—There were four meetings of District Committee held during the half-year under report, and one of which had to be adjourned for want of quorum. Four meetings of the Branch Committee at Jajpore were held during the half-year, and none at Kendraparah.

A separate report on the state of collections and arrears of cesses has already been submitted from the Collectorate side—vide No. 107, dated 29th July last.

Dated Pooree, the 5th June 1887.

From—H. SAVAGE, Esq., C.S., Chairman, District Board, Pooree,  
To—The Commissioner of the Orissa Division.

IN submitting herewith the accounts of the District Road Fund for the half-year ending 31st March 1887, I have the honour to append a copy of a report submitted by the District Engineer, showing what work has been carried out on the roads during the half year, and to report that during the half-year special attention was paid to the execution of repairs in order to put the whole of the roads on the District Committee's list in a passable condition, and at the close of the half-year all the roads were in very fair order considering the funds available.

2. Besides looking after the repairs the District Engineer was engaged for a considerable time in measuring up and settling claims for work done in former years, and I am glad to say that he has now settled all the outstanding claims on terms very advantageous to the Road Fund, so that after they are all paid the District Board will find itself with a somewhat larger sum available for new works than was previously anticipated.

3. During the half-year the payments made were mostly on account of the old accounts outstanding. The work done during the half-year was not generally paid for before the close of that period, as in most instances it was not finally completed, and it has been always the custom to make the bulk of the payments in the latter half of the case year which terminated in September 1886.

4. All the work done during the half-year and which was not paid for is covered by the District Board's budget for 1887-88.

5. Very little was done as regards village roads as no special application for such roads came in during the half-year and consequent on the impending change from District Road Committee to District Board. I think it best to leave the question of village road works to be decided by the District Board.

6. No new trees were planted along the road sides during the half-year, but those already planted were well looked after.

7. The District Engineer, Mr. Beale, has worked very energetically, and has given me complete satisfaction. The rest of the staff has also worked satisfactorily.

Chairman.

H. SAVAGE,

Chairman.

*Report showing work done and general condition of roads in the Poores District for the half-year ending 31st March 1887.*

**Pathankia and Khordah road**—This road is 22 miles in length. It takes off from the Main Pilgrim road 1½ miles from Poores. During the half-year earthwork repairs have been carried out, and metal has been collected which will be consolidated in the rainy season. The estimated expenditure up to date has been Rs. 1,800.

2. **Pipri-Khordah Road**—This road is metalled throughout, and is 14 miles in length. The metal required for repair is entirely collected and will be consolidated early in the rainy season. After which the road will be in very fair order. The estimated amount for the road is Rs. 800.

3. **Khordah and Kallapather Road**—This road is 18 miles in length, of which the first 10 miles are metalled. During the half-year metal for repairs to these miles has been collected. Besides this, metal has been collected for portions of the 11th, 12th, 14th and 16th miles, which were previously unmetalled and always in very bad order after heavy rain. Metalling at all causeways has also been collected. The road will now be in very fair order at all seasons, and if a small further expenditure is sanctioned later on for metal collection, it can be made as good as could be desired. The estimated cost up to date is Rs. 1,000, besides this the sum of Rs. 1,129, balance from the estimate for 1885-86, after payment of contractor's claims, was utilised on the road.

4. **Bagmari and Bolegur Road**—This is an unmetalled road and takes off from Bagmari on the Kallapather road, and runs to Bolegur on the boundary of Nayagurh. The following portions of the road running through rice fields require metalling:—miles 16th, 18th, 19th and 23rd for a length of 3,000 feet in each mile, miles 20th, 21st and 22nd completely. When this is done and a few more culverts constructed, the road will be excellent. At present for an unmetalled road the condition of the road is very fair. A new bungalow is urgently required at Sunakhalla. Repairs to earthwork and metal collection at all causeways have been carried out during the half-year at an estimated cost of Rs. 400. Besides this the sum of Rs. 367, balance from the estimate for 1885-86, after payment of contractor's claims, was utilized on the road.

5. **Banpore and Baghura Road**—This road is 15 miles in length extending from Banpore to Baghura in the Khordah Mills and a considerable portion runs through dense jungle. During the half year repairs to earthwork and jungle cutting, &c., has been carried out. The road is in very fair order.

6. **Palugoon and Banpore Road**—This road is metalled and runs from the west bank of the Chilka Lake to Banpore where it is connected with the Khordah Mál road. Earthwork repairs have been executed and metal has been collected, which will be consolidated in the rains. After which the road will be in very fair order. The estimated cost of this and of the Mál road is Rs. 400.

7. **Chandka and Bhubaneswar Road**.—This road is 11 miles in length and runs mostly through jungle. During the half-year earthwork has been done and the jungle cut. The road is now in excellent order. The estimated cost of the road is Rs. 500.

8. **Bhubaneswar-Ballianta Road**.—This is an unmetalled road nearly 7 miles in length running from Bhubaneswar to Ballianta, opposite to 14th mile of the Jagannath road. Earthwork repairs have been carried out at an estimated cost of Rs. 200. The road is in very fair order.

9. **Bakghai-Madhab Road**.—This is an unmetalled road. During the half-year breaches have been filled in, and earthwork repairs generally carried out at a cost of Rs. 1,000. The road will be in very good order during fair weather.

10. *Burrubooddy Road*.—This road takes off from the eastern bank of the Chilka at Burrubooddy, distant about 14 miles from Poores. During the half-year earthwork repairs have been carried out at an estimated cost of Rs. 200. The road is in fair order.

11. *Armstrong road in the Civil Station of Pooree*.—This is a metalled road extending from the flag-staff on the sea beach to near the Atharnallah Bridge. Metal is being collected which will be consolidated during the rains.

The sum of money mentioned on the various roads represent the estimated amount, and were not all paid as contractors were not present.

J. A. BRALD,

*District Engineer.*

No. 105, dated Balasore, the 1st August 1887.

From—A. C. TUTE, Esq., Chairman, Balasore Road Cess Committee,

To—The Commissioner of the Orissa Division.

I HAVE the honour to submit the annexed accounts and the following report on the administration of the Road Fund of this district for the period from 1st October 1886 to 31st March 1887. The period from July to September 1886 was comprised in the report for the last year, submitted in this office No. 252, dated the 18th December 1886, and it is needless to repeat here the remarks made in that report.

1. *Original Works*.—Some works were executed on the Boloramgori road for which Rs. 141-2 was paid.

2. *Repairs*.—It was only in December last that the estimates for road work were sanctioned by the Committee on receipt of your sanction to the budget estimate No. 4920, dated 6th September 1886, and therefore in the three months from January to March much work could not be done on the fair-weather roads and on the metalled roads; no works, as a rule, are done in the dry season.

3. *Village Roads*.—The remarks in paragraph 2 in regard to district roads hold good in the case of village roads.

4. *Arboriculture*.—The three nursery gardens that are in existence in this district are in a satisfactory state, and mallies have been engaged to grow trees on roadsides. Some of the trees that were planted in previous year were partly damaged by the late cyclone.
